

📄 Lumina AI advisor - English voice-over script

Bản thoại tiếng Anh để thu giọng, song song với bản tiếng Việt trong loi-thoai-lumina.md. **Tên tệp giữ nguyên như bản tiếng Việt, chỉ khác thư mục:** tiếng Việt `assets/audio/voice/adv-02.mp3` → tiếng Anh `assets/audio/voice/en/adv-02.mp3`. Nhờ vậy game chỉ cần đổi tiền tố thư mục theo nút VI/EN, không phải dò bảng. **Chưa thu câu nào.** 51/51 câu đang chờ.

Vì sao bản tiếng Anh ngắn hơn bản tiếng Việt một câu

chat-01 bị loại khỏi danh sách thu ở cả hai ngôn ngữ. Câu đó không phải một câu thoại mà là khuôn định dạng `👤vai trò👤 nội dung` trong `js/app.js:1188`: cả hai phần đều do máy điền, phần nội dung chính là các câu `adv-XX` đã có bản thu riêng. Đọc chat-01 sẽ chỉ tạo ra một bản trùng.

Vì vậy: **51 câu** cần thu, không phải 52.

Điểm khác biệt lớn nhất so với bản tiếng Việt

Bản tiếng Việt phải viết dài các từ viết tắt vì đọc "CEO", "ROI" theo lối Việt nghe không chuẩn. **Tiếng Anh thì ngược lại:** CEO, CFO, CMO, COO, ROI, OEE, KPI, R&D đều là cách nói hằng ngày, đọc thẳng theo từng chữ cái là đúng nhất. Nên bảng tra bên dưới ngắn hơn nhiều.

Bảng tra - chỉ những chỗ cần đọc khác mặt chữ

Trong câu	Đọc thành	Vì sao
SEC	Secretary	Đọc "S-E-C" trong tiếng Anh để bị hiểu là Ủy ban Chứng khoán Mỹ. Trong game đây là vai Thư ký.
đ · trđ · kđ	dong · million dong · thousand dong	
ERR_AI_LIMIT_REACHED	bỏ, không đọc	Mã lỗi hiện trên màn hình; câu sau đã nói đủ ý.
R&D	R and D	
%	percent	
đi th B → competitor B	competitor B đọc rõ chữ "B"	
Số trong ngoặc {...}	đọc một con số bất kỳ	Chỗ trống diễn số liệu động.

Không đổi: CEO, CFO, CMO, COO, ROI, OEE, KPI, ESG, Marketing Mix, Marketing Boost, R&D Upgrade, Branding Premium, Brand Loyalty, Commit – đọc nguyên văn theo lối tiếng Anh.

Tên riêng tiếng Việt

Giữ nguyên cách phát âm tiếng Việt, đừng Anh hoá – đó là bản sắc của sản phẩm: **Cần Thơ, Đà Nẵng, Khánh Hòa, Thanh Hóa, Hà Nội, Hồ Chí Minh, Bất Nghiệp, Lumina, Tú Phan, Đỗ Thùy Hương.** Riêng BizOn, BizOn Go Global, Brand Passport đọc theo tiếng Anh.
